

Clarifications to Phase 2: Evaluation of the Installation Project

Programme to Attract International Center of Excellence for Competitivity

General Observations:

- In the evaluation stage of the installation project, a representative of the International center of Excellence may present its proposal to the advisory committee, the international panel and the extended subcommittee.
- The sectorial economic impact development must contain enough details to justify the installation of the Center facility in the country.

Form in English

Page 16

Where it says:

Department / Work Area	Position, Functions and Responsibilities

Should read:

Department / Work Area	Position, Functions and Responsibilities	Full time equivalent (FTE)

Page 17

Where it says:

TOTAL STAFF PER STAGE			
RESEARCH LINE STAFF			
<i>THIS TABLE DETAILS THE ADDED VALUE R&D STAFF.</i>			
Category	Number	Indicate how many hold a doctorate degree	Indicate number of Full Time Equivalent (FTE)
Principal (s)			
Researchers			
Technicians			
Other (specify)			
MANAGEMENT TEAM STAFF			
<i>THIS TABLE INCLUDES THE STAFF OF THE CENTRE THAT ARE NOT CONTEMPLATED IN THE PREVIOUS TABLE (DISTINCT FROM PROFESSIONALS IN THE R&D AREA)</i>			
Category	Number	Indicate number of Full Time Equivalent (FTE)	
Director/Manager			
Area Manager(s)			
Coordinator(s)			
Other (specify)			

Should read:

TOTAL STAFF PER STAGE		
RESEARCH LINE STAFF		
<i>THIS TABLE DETAILS THE ADDED VALUE R&D STAFF.</i>		
Category	Indicate how many hold a doctorate degree	Indicate how many work full time equivalent
Principal (s)		
Researchers		
Technicians		
Other (specify)		
MANAGEMENT TEAM STAFF		
<i>THIS TABLE INCLUDES THE STAFF OF THE CENTRE THAT ARE NOT CONTEMPLATED IN THE PREVIOUS TABLE (DISTINCT FROM PROFESSIONALS IN THE R&D AREA)</i>		
Category	Indicate how many work full time equivalent	
Director/Manager		

Area Manager(s)	
Coordinator(s)	
Other (specify)	

Page 18

Where it says:

Mention the infrastructure of the ICE-Chile, both at a corporate level and for the development of the research lines.

Destination / use (brief description)	Location (Institution, City)

Indicate the infrastructure that ICE-Chile will acquire and/or construct, justifying the terms and processes contemplated. Consider the acquisition and/or construction of laboratories and their capacity.

Infrastructure (brief description and justification)	Location (Institution, City)	Capacity (m2)

Present detail of the equipment for Stage 1.

Equipment (brief description)	Value of the equipment (in '000 US\$)	Stage

Should read:

Mention the infrastructure of the ICE-Chile, both at a corporate level and for the development of the research lines.

Destination / use (brief description)	Location (Institution, City)	Kind of acquisition (lease /purchase)

Indicate the infrastructure that ICE-Chile will acquire and/or construct, justifying the terms and processes contemplated. Consider the acquisition and/or construction of laboratories and their capacity.

Infrastructure (brief description and justification)	Location (Institution, City)	Capacity (m2)	Kind of acquisition (lease /purchase)

Present detail of the equipment for Stage 1.

Equipment (brief description)	Value of the equipment (in '000 US\$)	Stage	Kind of acquisition (lease /purchase)	R&D associated line

* The greatest investment contributions of equipment relevant to impact evaluation.

Page 19:

In paragraph B.- *Policies and regulatory considerations of the ICE-Chile*, add the following point:

iv. Include collaboration agreements.

Page 21:

Name of the R&D line

1. Description.

Where it says:

Research Line		<name of the line>			
Co-executor (s)		<name institution>			
Interested Party (ies)		<name institution>			
Location Describe where and how the research work will be carried out					
OECD categorization per line (Knowledge areas)					
Discipline					
Subdiscipline					
Research Areas			Research Project per matter		
Work Team					
Category	Name of Researcher	Degree(s)	Doctorate (s)	Institution of Affiliation	Committed Hours (Hrs./month)
Principal(s)					
Researchers					
Others					

Should read:

Name of the R&D line

1. Description.

Research Line		<name of the line>			
Co-executor (s)		<name institution>			
Interested Party (ies)		<name institution>			
Location Describe where and how the research work will be carried out					
OECD categorization per line (Knowledge areas)					
Discipline					
Subdiscipline					
Areas or research unit			Research Project per matter		
Work Team					
Category	Name of Researcher	Degree(s)	Doctorate (s)	Institution of Affiliation	Committed Hours (Hrs./month)
Principal(s)					
Researchers					
Others					

Page 22:

Where it says:

Problem			
Explain the problems or questions that motivate the development of the corresponding research line and development that is being sought to carry out. Refer to the specific actions lines that have been implemented by the committed researchers and/or the institutions to which they belong, indicating how they relate with this project.			
Products and services <i>Indicate the products and/or services that are contemplated for the respective research line.</i>			
Product / Service		Description	
Results and Commitments			
Indicator	Targets Stage 1 (years 1 to 3)	Targets Stage 2 (years 4 to 6)	Targets Stage 3 (years 7 to 10)

--	--	--	--

Should read:

Problem
