

## CLARIFICATION

### **Modification of the National and International Call for Specialized Producers of Lithium-Based Products to Invest in Production Capacity in Chile**

**Clarification March 2020:** By CORFO's resolution (E) N° 246 on March 12, 2020, the National and International Call for Specialized Producers of Lithium-Based Products to Invest in Production Capacity in Chile were modified and the new document was approved by resolution (E) N° 368 in 2019. More specifically, the modifications are the following.

- 1) In clause 4, called "ELIGIBILITY, ASSESSMENT, AND SELECTION", replace the second paragraph:

**Where it says:**

"The eligibility and assessment will be performed by a selection commission, appointed by CORFO's CEO & Executive Deputy Chairman, leaving record of this in minutes to be signed by all Selection Commission members".

**Must say:**

"Before evaluating the applications, CORFO will verify the compliance with the minimum conditions that guarantee the suitability of each proposal by means of an admissibility analysis, in consideration what is sated in clause 4.1 below. Then, and only for the proposal that are admissible, the evaluation will be carried out by an Evaluation Commission appointed by the Executive Vice President of CORFO, which will be recorded in a minute signed by all its members".

- 2) In clause 4.2, called "ASSESSMENT CRIETRIA", replace the first paragraph:

**Where it says:**

"Eligible Applications, as defined in the previous paragraph, will be assessed under criteria and sub-criteria defined as main and additional, as stated forth. Marks from 1 to 5 will be allocated. A technical report of the assessment process will be drafted, where the grounds for assessment will be explained".

**Must say:**

"Applications eligible according to the previous clause will be assessed under the criteria and sub-criteria hereafter referred to as main and additional criteria, assigning marks from 1 to 5, elaborating for this purpose a technical report of the assessment

process, where each assessment category will be addressed, justifying the mark with which each one is rated. It should be noted, that during the assessment process, external consultancy may be hired for a better analysis of the proposals to be evaluated. Moreover, information may be requested to other bodies of the State Administration, which is relevant in relation to the objectives of the call and the proposal”.
